This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE

This Guide has been compiled to facilitate the work of the librarian in his selection, purchase and care of periodicals; to assist the bookseller and the subscription agent by placing before them in convenient form the current periodical literature of the United States and Canada; to guide the private citizen in his choice of magazines for his home, his office, or his club.

The business man wants to know what magazines cover the field in which he is especially interested and the prices at which they are published; the subscription agent is interested to know the names of periodicals and serials, publishers' addresses, and subscription prices; the librarian must have the whole information concerning periodical literature classified, indexed, and conveniently accessible. Every librarian and subscription agent must be aware of the meagre information that we possess concerning our periodical literature. The English have "Willing's Press Guide", the French their "Annuaires des Journaux", the German their "Journal-Katalog", but there is nothing published in this country which corresponds exactly to these foreign lists. Our newspaper annuals fill the place for which they are designed, and give information which up to the present time can not be found elsewhere; but they are not sufficiently comprehensive and their contents are not conveniently arranged for ready reference.

The material in this Guide is arranged first alphabetically by titles and secondly by subject matter. In the alphabetical arrangement the titles of periodicals and serials and the names of societies are arranged in one list by the first word of the title, not an article, or the name of the society. Bulletins, journals, proceedings, reports, and transactions of societies are entered under the names of the societies. The aim has been to give the name of the publication, date of first issue, frequency of publication, the publisher's name and address and the subscription price. In the second part of the Guide, the material so far as possible has been arranged by subjects, but not having been able to examine all the periodicals personally the compiler craves indulgence for errors and omissions.

It is hoped to make the Guide an annual publication, corrected each year, and kept up to date. No one better understands the incompleteness of the present edition than the compiler himself and he consents to its publication in the hope of being able to make future editions more nearly complete. The aim has been to include all periodicals and serials published in the United States and Canada with the exception of local and political newspapers, administrative reports, state and government publications. Information regarding these publications is accessible in other forms.

In the preparation of this work the compiler has drawn on various sources for his material. The publishers of the periodicals have responded with promptness and courtesy to requests for information, and frequent use has been made of N. W. Ayer and Son's American Newspaper Annual, of the Catalogue of Copyright Entries, Part 2: Periodicals; of the List of Serials

in Public Libraries of Chicago and Evanston, and of the second edition of the supplement to the list issued by the John Crerar Library.

Any suggestions, corrections or information intended to make the Guide more nearly accurate and complete, and therefore more serviceable, will be gratefully received.

The compiler respectfully suggests that notice of any change in title, frequency of publication, subscription price, publisher, and publisher's address, of the publications listed on the following pages, and new publications or notices of them, may be sent to him for inclusion in the next edition.

The compiler is especially indebted to Mr. Theodore W. Koch, Librarian, University of Michigan, and to Mr. Byron A. Finney, assistant, for their valuable suggestions and advice, and to the latter for assistance in reading and revising the proof.

This work was nearly completed when the compiler was appointed Librarian of the University of Missouri; the work, however, was practically all done at the University of Michigan.

LIBRARY OF THE UNIVERSITY OF CALIFORNIA

The

Magazine of History

WITH NOTES AND QUERIES

WILLIAM ABBATT, Publisher

141 East 25th Street NEW YORK

The only monthly devoted to the subject of American History. It is the virtual successor of the Magazine of American History (1877-1893), edited by Mrs. Martha T. Lamb.

Issued Monthly at 50c a Number. $5.00 a Year

The Magazine proves most satisfactory. Its general appearance reminds me of the old *Magazine of American History*, whose files are a great treasure-house of valuable historical information. I find the contents of this equal in interest to those of the earlier magazine.—GRENVILLE M. INGALSBE, First V. Pres't N. Y. State Historical Ass'n, Sandy Hill, N. Y.

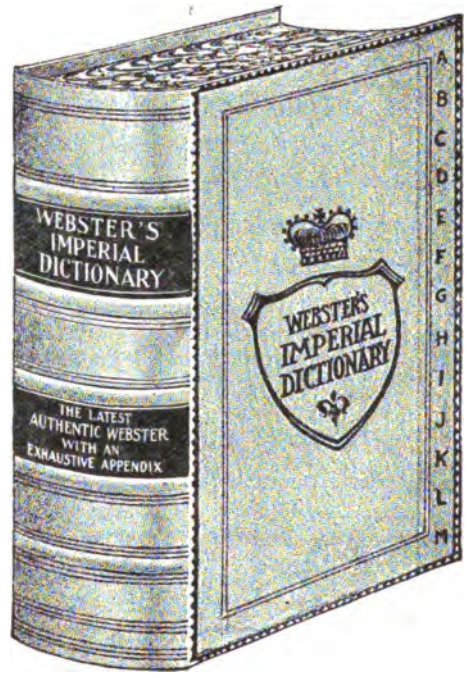
GET THE BEST

THE NEW WEBSTER'S

Imperial Dictionary

2173 PAGES

Newly Edited and newly type set, and priced at $5.00 per copy to Libraries is something that should attract you.



This book is not published by that self-satisfied concern in Springfield, Mass., but by George W. Ogilvie, Chicago, Ill., who has done a work worth while.

WHEN ACCURACY DEPENDS, as it often does, on the meaning of a single word, can you afford to lean upon such works as Webster's International, an obsolescent, if not wholly obsolete, dictionary for information? Think of relying on a dictionary in which is such a definition as "left-handed on both sides"—a physical impossibility, of course – but nevertheless it is to be found on page 46 of Webster's International Dictionary—defining the word "ambilevous," and that is *only one of the hundreds of errors Webster's International Dictionary contains.*

What does W. T. Harris, Ph.D., LL.D., say about "Left-handed on both sides?" We quote from a letter from him, now in our possession, as follows:

"Regarding the use of the phrase, 'Left-handed on both sides,' permit me to say that *the expression is proper only in the humorous literature as a sort of 'Irish Bull'*—a very facetious invention if so taken, *but would not do for a serious description.*" (Signed) W. T. Harris.

This letter of W. T. Harris takes Webster's International Dictionary out of the reliable reference work, and places it *in the joke book class.* W. T. Harris certainly ought to know where it belongs, *as his name appears on its title page as "Editor-in-Chief."*

Send for descriptive circular or, better still, order a copy **NOW.** A book so worthy that competitors fight, lie and steal, in their attempt to prevent its publication is worth a place on the shelves of every library and in every school in the land.

"For many years the Webster's Dictionary, published by G. and C. Merriam, of Springfield, Mass., was accepted as the standard and given preference over other dictionaries. No attempt has been made for more than ten years to revise the Merriam edition and bring it down to date; the only evidence of improvement was the addition of a supplement which was a confession that the body of the work was **behind the times and in sad need of revision. For the first time the old Webster's dictionary has a competitor that not only commands respect but causes genuine alarm in the ranks of the great dictionary monopoly. The Webster's Dictionary, published by George W. Ogilvie, has all the good features of earlier dictionaries with all possible improvements and additions.** It is strongly and attractively bound, contains 2,173 pages with a marginal index. **The book is thoroughly up to date. Mr. Ogilvie has produced a work of rare merit** and worthy a place in every school and private library."—The State, Hon. John Cassell, Editor, Madison, Wis.

A New Magazine—in a New Field

THE UNIVERSITY DIGEST

PUBLISHED BY

The University Research Extension

With a staff of 100 of the World's leading University Men

An International Magazine of the best things thought and said

Devoted to the ideas that are influencing civilization

Leading professors, ministers, thought workers and other intelligent people are beginning their subscription with the first (Sept.) number, realizing that the limited edition of these first numbers will soon be exhausted and counted among the treasures of the best libraries in the land.

Plan and Scope

It is the purpose of the University Digest to present the **ideas that are influencing Civilization** in the words of the men or the documents that have developed them. After centuries of prejudice and criticism thinking people have decided that it is more satisfactory to examine at first hand the thought and life of the world than it is to read some critic's metaphysical essay upon another man's work. **We have no personal theories** of religion, philosophy, ethics or sociology to propagate or vindicate; we merely collect and produce the most important original sources of current thought.

DEPARTMENTS

Book Digests A digest of the greatest thought stirring and thought provoking current book of international significance. Not an ordinary ten-line or half-page review furnished by the publisher; but an exhaustive digest containing ten or fifteen pages of the book, given in **the author's own words.**

Magazine Digests Not an ordinary review notice or half-column digest, but an exhaustive reproduction of the world's greatest periodical article for the current month, given in **the author's own words.**

Open Court We here select and reproduce through the co-operation of our international staff of university specialists, the really great **orthodox and radical** criticisms and discussions provoked by the appearance of the work previously digested.

Great Documents of the Past In this department we digest and reproduce some great religious, philosophical, scientific or sociological document of the past. Some **original document** which has in a marked way contributed to civilized life.

Research News Bringing together the world's great periodical articles (next in importance to those reproduced in our digest departments) we arrange them under Religion, Philosophy, Sociology, Art and Science. In epigramatic statements of three to eight lines we then reproduce the author's own argument generalization or original idea. Thus one can turn to Sociology, or any other department, and get a resume of the current thought production in that particular field of action.

A Magazine of the regular size, 48 pages solid reading matter, printed on velvety, all rag deckle-edge paper made especially for this publication. $3 per year of ten months.

(Cut this out, pin a dollar bill to it and MAIL IT TODAY)

Gentlemen:—I enclose one dollar for five months trial subscription to the University Digest, it being understood that I may have the privilege of exchanging my magazines for the dollar in case I am not satisfied with my investment at the expiration of the five months.

THE UNIVERSITY DIGEST

PUBLISHED BY

The University Research Extension

With a staff of 100 of the World's leading University Men

An International Magazine of the best things thought and said

Devoted to the ideas that are influencing civilization

Leading professors, ministers, thought workers and other intelligent people are beginning their subscription with the first (Sept.) number, realizing that the limited edition of these first numbers will soon be exhausted and counted among the treasures of the best libraries in the land.

Plan and Scope

It is the purpose of the University Digest to present the **ideas that are influencing Civilization** in the words of the men or the documents that have developed them. After centuries of prejudice and criticism thinking people have decided that it is more satisfactory to examine at first hand the thought and life of the world than it is to read some critic's metaphysical essay upon another man's work. **We have no personal theories** of religion, philosophy, ethics or sociology to propagate or vindicate; we merely collect and produce the most important original sources of current thought.

DEPARTMENTS

Book Digests A digest of the greatest thought stirring and thought provoking current book of international significance. Not an ordinary ten-line or half-page review furnished by the publisher; but an exhaustive digest containing ten or fifteen pages of the book, given in **the author's own words.**

Magazine Digests Not an ordinary review notice or half-column digest, but an exhaustive reproduction of the world's greatest periodical article for the current month, given in **the author's own words.**

Open Court We here select and reproduce through the co-operation of our international staff of university specialists, the really great **orthodox and radical** criticisms and discussions provoked by the appearance of the work previously digested.

Great Documents of the Past In this department we digest and reproduce some great religious, philosophical, scientific or sociological document of the past. Some **original document** which has in a marked way contributed to civilized life.

Research News Bringing together the world's great periodical articles (next in importance to those reproduced in our digest departments) we arrange them under Religion, Philosophy, Sociology, Art and Science. In epigramatic statements of three to eight lines we then reproduce the author's own argument generalization or original idea. Thus one can turn to Sociology, or any other department, and get a resume of the current thought production in that particular field of action.

A Magazine of the regular size, 48 pages solid reading matter, printed on velvety, all rag deckle-edge paper made especially for this publication. $3 per year of ten months.
